Professional Services On
Digital Transformation
& Software Development

Who Are We?

We are a digital transformation organization and a software development company aiming to level up the daily lives of the humans by providing end to end solutions to all areas of our lives.

Jaivam life exclusively focus on the continuous excellence of three inevitable essentials:

Agricultural sector

Healthcare sector

Business sector

While offering cutting edge digital transformation consultancy, we help our clients in untangling the complex issues that they may face during their digital journey. We consider ourselves to be a visionary and trustworthy software engineer associate. Being a web and mobile-based application development firm, we work with a specialised team of software designers, engineers, developers who combine their technological experience and on-ground expertise and deliver excellent customised solutions.

What We Do?

Software Development

Web Hosting

Quality Management

Our Products

JAB ERP

Our modern ERP software; JAB is equipped with flexible options, customisation, better privacy, security and sustainability. We help to run your entire business operations efficiently and prepare for a better tomorrow. The ERP software not only offers connectivity within your system but also connects all data for better insights that help you optimize your business.

JAB Assist

Manage your entire business with our branded online consultation service. Jab Assist is one of the most advanced systems on the market, with several important benefits that cater to a wide range of customer requirements.

JL Kart

Our E-Commerce solution is a platform where businesses can offer any kind of product and service. The JL Kart is a complete shopping solution for everyone. With JL Kart, you will have a personalised experience with customers. Our E-commerce solution is compatible with iOS and Android devices.

HRMS

A HR Management system allows companies to manage their payroll and attendance and people related activities like human resources. Other features in HRMS include role management, attendance, employee profiles, vacation time, project management, and customized reports.

Billing Software

A complete online billing software which manages invoices, payment reminders, online payment processing, automation solutions and detailed reporting. Our billing software consists of all features required to manage your billing online. Our billing software can be integrated with other online applications using API. App integrations can save you time and money when it comes to adding functionality to your app.
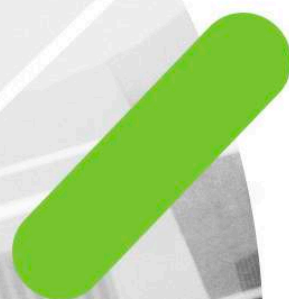

CRM System

Improve the relationship with your customers using our Customer Relationship Management System. Enhance your business performance, increase your productivity, boost revenue and scale your company to greater heights in no time.
